- **About**

Free Doge AI (FDAI) is a community-supported, tax-free, and decentralized meme + artificial

intelligence (AI) token that can be stored on the BNB Chain (BEP-20).

It combines entertainment with the whole to create a new generation of digital culture. Inspired by

the spirit of Dogecoin and Elon Musk's love of dogs.

FDAI is a new digital lifestyle where humor, AI, and the power of community come together.

- **Our Goals**

To deliver a fun and accessible crypto experience by combining AI and meme culture

To create a decentralized, fair, and completely tax-free token economy

A structure where everyone has the right to own, with the power coming from the collector
